Not sure why she called you. We are working already on the site with DTSC and have not offered to do the sampling. Sara Ziff is the contact. Sara, I'm not sure this option works but we can explore if needed.

She is looking for a creative way to quickly get about \$50k of sampling done at a site called Riverside Ag Park. The state needs to do the sampling for political reasons, but the developer will reimburse costs to DTSC. She called me because of our in-kind agreement and IA with you on the LUST side.

Not sure if you have excess money in your new RCRA C IA where you can get this work done and then get DTSC to give you money in the future. But I thought of you when it comes to finding solutions to problems.

Thanks
